Real Estate Transfers-District Court-Weber County Museum Personals-General Gleanings.

Mesars. Mesas Thatcher, George Thatch er and Mayor Haines of Logan, all interested in the La Plata mine at La Plata passed through the city to Sait Lake yes terday morning where they went to attend a meeting of the stockholders of the La Plata mining company.

A Lively Scrap.

Quite an interesting scrapping match made a crowd of spectators look curious at the Union depot yesterday morning. The principles were J. A. B. Witcher,

son of John S. Witcher, of the United States army and Colonel George Marsh a

Denver man.

Witcher was about to get aboard a train for Rawlins, Wym., while Marsh, who was overburdened with old rye, came up and gave his value a few kicks. Witcher did not wait for any ceremonies, but pasted Marsh a terrible blow in the face. At this juncture the depot police interfered and took the two men to the city jail. Until they had reached the city basille the Denver man was not known, but upon inquiry it was found he was intimately acquainted with several prominent business men. with several prominent business men formerly of Colorado's capital, who came to his assistance, and after a little caucusing the whole affair was amicably settled without the proceedure of his honor.

Recruits For Southern Utah. Fifteen recruits, under the charge of

Colonel Solomon E. Sparrow, arrived in the city yesterday from Sidney, Neb., and were bound for Fort Duchene, Utah. The toys had considerable freight with them, which involved the duty upon the United States quartermaster in this city to see that it was properly transferred and ship-ped to its destination.

Colonel Sparrow was infatuated with the appearances of Ogden, and seemed quite surprised that it is so much larger than he had supersed.

had supposed.

The new federal court room in the Utah Loan and Trust company's building will probably be ready for occupancy in a little over thirty days.

Four trumpeters rode through the streets yesterday afternoon on horseback, adver-tising the Forepaugh shows, which exhibit in Ogden next week.

The condition of Washington avenue in many places is deplorable. The city council should get a move on itself and have the atreet fixed up before the fall rains come.

There are undelivered messages at the Western Union Telegraph office for the fol-lowing parties: John A. Papy, G. H. Mo-Kinsey, J. W. Sanborn, Thomas L. Cabill, W. M. Wisdom, Miss C. Gibson and George T. Porter

HAD NOT SLEPT FOR YEARS.

HAD NOT SLEPT FOR YEARS.

Mr. A. Jackson, an old resident of Rusk, Texas, and manager of the magnificent wew hotel at Rusk, informs us he had not siept at night for years, except in short naps, owing to incessint coughing. He was advised when very much run down to try Ballard's Horehound Syrup; he was immediately relieved of his cough and his rest improved to such a degree that he could sleep soundly all night. Mr. Jackson states: "I regard Ballard's Horehound Syrup superior to any cough sprup on the market, and its freedem from optium and morphine leave no constipation after using it. For this reason sione I consider it the best cough syrup in the world for children. My lungs are now stronger than they have My langs are now stronger than they have been for years. This syrup is very sooth-ing to the threat and lungs." Sold by Zion's Co-op. Mercantile Institution drug department.

Ever hear of the Encyclopædia Britannica? Probably. If not, any literary man or librarian will tell you that it is universally accepted as the standard Encyclopædia in the English language. It ought to be. It was originally published in 1771, and since that time has passed through nine editions, the latest of which was compiled fifteen years ago. In its lifetime of a hundred years and more it has gathered to itself the choicest work of the best writers of each successive generation, sparing no expense to secure from every expert in every department of human knowledge the best he was capable of giving. On the preparation of its various editions it has spent more than three millions sterling, and the cost of the latest or ninth edition alone was not less

than ONE MILLION DOLLARS. But the Encyclopædia Britannica has three defects which detract from its usefulness in an American family. In the first place, part of its latest edition is now fifteen years—or half a generation—behind the age. In the next place, it makes no biographical mention of any persons who were living when it was compiled, no matter how famous they may have been; General Grant, even, is left out. And, lastly, the Encyclopædia Britannica is an English work, compiled for the use of Englishmen in England, and, as is only natural under such circumstances, it treats all subjects of peculiarly English interest exhaustively. and those of purely American interest with far less than the subject warrants. Three pages to an English County and a column or less to an American State is about the proportion.

The Americanized Encyclopædia Britannica

Contains every subject the Encyclopædia Britannica does, with the above defects carefully amended. The entire work has been revised to date, and a series of ninety-six new maps inserted; over 4,000 new biographies have been added. including every person of prominence in the entire world, and the Encyclopædia has been Americanized by reducing the space allotted to peculiarly English subjects and by enlarging that devoted to topics of purely American interest. The result is, we honestly consider, the Best Encyclopædia in the World today, and that is saying a great deal.
